Yeah, that was what I was mentioning at the OWWET (i.e., not sure what to call the upcoming meeting that Dan is having with the Spokanes since they didn't want to consult – but the meeting is akin to a consultation). Also, I am cc'ing Maja so she is aware of this exchange. Thanks.

Dear OWWET,

Thanks for your time, and for helping me get up to speed on OWW's various hot topics and consultations. Attached is the consultation table we looked at this afternoon, with some revisions and additions based on your feedback. Please take a look and update whichever sections pertain to your unit. Or, you could give me the marked up hard copy versions (whatever's easiest for you. It would be great to have your edits by Wednesday afternoon.

These projections are for the current reporting period (Oct 1 – April 1), and this information will be used to update EPA's tribal consultation tracking database (TCOTS).

Angela- This includes the projections Maja shared with JR. Also, I spoke with Kathleen, and she indicated that the Spokane Tribe declined consultation on the WQS approval action, so I removed it from the list.

Thanks so much,

Catherine Gockel MS, MPA
